About Us

Fully Tanked Up

At Fully Tanked Up, we provide innovative solutions for water level monitoring. We understand the challenges faced by our customers and are constantly looking for ways to improve and simplify their processes. Our team is made up of experts in their field, who are enthusiastic about what they do and are committed to delivering the best possible results.

We believe in staying at the forefront of technology and are constantly researching and developing new products and services to meet the ever-changing needs of our customers. We pride ourselves on our customer-centric approach, and our goal is to build long-lasting relationships with our clients based on trust and mutual respect.

Our company culture is built on the values of integrity, excellence, and teamwork. We believe in open communication and collaboration, and we strive to create an inclusive and supportive environment for our employees.

Vision Mission

Vision

"Our vision is to be the global leader in providing innovative, affordable and reliable water tank level measurement solutions, empowering our customers to effectively manage their water resources and improve their overall efficiency and sustainability."

Mission

- To constantly research and develop new technologies to meet the evolving needs of our customers
- To build long-lasting relationships with our customers based on trust and mutual respect
- To foster a culture of integrity, excellence, and teamwork within our organization
- To strive for sustainability and efficiency in all our operations
- To be committed to providing exceptional customer service and support
- To be a global leader in water tank level measurement industry

Best Achievement

Australia Made Awards | 2022

Best Rain Water Tank Level Sensor Manufacturer

Australian Owned 2022

Proudly Australian owned and operated

Our Product

The Tank Level Pro Bluetooth level sensor is an excellent choice for those looking for an accurate, easy-to-install water tank level sensor. The sensor fits tanks of all sizes and is made of industrial grade material, making it a versatile option for all water tank applications. The Bluetooth level sensor has a working range of fifty meters and with a battery life of 36 months, you can be confident that the sensor will provide reliable level readings for an extended period. In addition, the Tank Level Pro Bluetooth level sensor comes with a 12-month warranty, ensuring that you will be fully satisfied with your purchase.

Our App

The Tank Level Pro BT App is essential for anyone who wants to keep track of their water tank level. With a simple set-up procedure, you will be able to see your water tank level in a matter of minutes. The app also has some excellent features, such as water tank level historical charts, water tank leakage detection and water tank estimated time to empty. You will be amazed at how quick and simple the process is, with all your water tank information displayed in a user-friendly format.

Benefits

- Easy to install
- Robust design
- Historical data
- Leakage detection
- No sign up
- No hidden costs
- Monitor Unlimited Tanks on 1 App
- Regular App updates
- Australian Owned

Specifications and Standards

Specifications

Measuring Range	20 to 5000mm
Measuring Precision	1mm
Battery	Type: D
Battery Life	>3 Years
Bluetooth Coverage	100m
Bluetooth Connection	50m

Standards

- ✓ AS/NZS CISPR 32:2015
- ✓ AS /NZS 4268:2017
- ✓ Designed to IP65
- ✓ Bluetooth V5.0
- ✓ Warranty 12 Months

Other Product Information

Total Box Weight	1.6kg
Color Front	Teal
Color Back	Black
Enclosure Mat.	Plastic
Transducer Mat.	Stainless Steel
Body Size	220x132x52
Transducer Size	105x28x28

Installation Tools

- ✓ Open Tank - None
- ✓ Closed Tank - 20mm hole saw
- ✓ Phillips head Screw Driver
- ✓ Mounting - Industrial Velcro
- ✓ Mounting - Magnets

Usefull Links and Ads

Installation in a Unsealed Tank

Installation in a unsealed water tank, tank with corrugated roof or underground tank will require zero tooling to install.

<https://1drv.ms/v/s!AujAbPDMk02AvAwxFhwPQJOqc8g-?e=MLGSzY>

Installation in a Sealed Tank

Installation in a sealed water tank will require a 20mm or 32mm hole saw. The hole will be sealed by the purpose designed rubber grommet that is supplied.

The Future

Tank Level Pro - Display

The **Tank Level Pro - Display** has gone through the system engineering phase with the industrial and mechanic design completed. This product is for customers who do not use mobile phones and computers

Tank Level Pro - Wi-Fi

The **Tank Level Pro - Wi-Fi** has gone through the initial design phase and is ready for system engineering. Including architecture design and hardware component selection. This product has been designed for farmers and large landowners

Tank Level Pro - 4G

The **Tank Level Pro - 4G** is at the same stage of development as the TLP - Wi-Fi. Both devices will be ready in 8 to 9 months time after rigorous testing. This device is designed for commercial use and will require a small subscription

Our Commitments and Policies

Manufacturing & Subcontractor

Fully Tanked Up's Manufacturing and Subcontractor Policy provides a framework for suppliers and service providers to adhere to when providing goods or services for the company. This policy outlines the expectations for subcontracting, document maintenance and accuracy, as well as compliance with local laws. <https://fullytankedup.com/manufacturing-and-subcontractor-policy/>

Ethical Policy

Fully Tanked Up is committed to working with suppliers and service providers to ensure that all products are sourced ethically and responsibly in compliance with local laws and international standards. We expect all suppliers to adhere to the minimum standards established for our ethical sourcing policy. <https://fullytankedup.com/ethical-policy/>

Environmental Policy

At Fully Tanked Up, we are committed to sustainability and actively seek ways to reduce our environmental impact in all areas of our business. We strive to be a leader in green business practices and ensure that our products, packaging, and operations are as eco-friendly as possible. <https://fullytankedup.com/environmental-policy/>
